### RESTRICTION ELECTION

Pursuant to Examiner's restriction requirement, Applicant elects Group I, Claims 1-21 reading thereon. Applicant respectfully traverses said restriction.

Applicant respectfully asserts that the process of Group II, as claimed in Claims 22-30, cannot "be used to make other and materially different product" nor can "the product, as claimed, be made by another materially different process." Examiner asserts, "the support for an electronic device could be used with something non-electronic," however, Independent Claim 22 requires installation of an "electronic" visual display, including connecting same to "at least one first set of electrical connectors." Thus, one could not practice the invention of Independent Claim 22, nor Claims 23-30 depending thereon, with non-electronic display articles as suggested by Examiner.
